ABSTRACT

New York State college and university personnel data for 1984-1985 are presented for various institutional classifications. Employment trend data are included by sector for 1980-1985. Data are provided on the number of full- and part-time employees by position, and the number of men and women employed by position and by institutional classification. This information is presented for the following institutional groupings: total state, total public, State University of New York, City University of New York, independent, proprietary, two-year, and four-year and higher. Data are also provided for categories within the sectors (e.g., university colleges, health sciences centers). The trend data, which is provided by position, and full- and part-time status, cover the following institutional types: public, independent, proprietary, and total state. The following positions are covered: executive, administrative, managerial; instructional faculty; other professional; and nonprofessional. Additional tables cover: tenure status and salary for instructional faculty on 9- and 12-month contracts; and the number and percent distribution of full- and part-time instructional faculty by age and sector.
